Executive Summary

The annual traffic and toll revenue report for the Richmond Metropolitan Transportation Authority (RMTA) provides a snapshot of the performance of the RMTA traffic and toll revenue in reference to historical traffic and revenue, forecasted traffic and revenue and the underlying reasons for emerging trends. The COVID-19 pandemic caused significant decreases in traffic and toll revenue beginning in March 2020 and continuing through the end of Fiscal Year 2021 (FY21). Fiscal Year 2022 saw signs of recovery for the RMTA system with overall traffic and revenue increasing from FY21 to FY22 by 15.9% and 15.8%, respectively. Fiscal Year 2023 shows traffic returning to normal levels with traffic and revenue increasing by 7% and 5.9% respectively. The Downtown Expressway transactions increased the most in percent terms from FY22 to FY23 at 9.8% while toll revenue increased by 9.1%. The Powhite Parkway and Boulevard Bridge transactions also increased from FY22 to FY23 by 5.7% and 5.4%, respectively. Toll revenue on the Powhite Parkway from FY22 to FY23 by 4.7%, while Boulevard Bridge saw a decrease of -3.4%. Table 1-1 shows the traffic and toll revenue on the RMTA system for FY22 and FY23.

Table 1-1: RMTA Traffic and Toll Revenue, FY22 to FY23

FY22 to FY23								
Facility	FY22	FY23	23 Difference					
racility	Γ122	F123	Absolute	Percent				
	Tran	sactions						
Powhite Parkway	33,804,764	35,731,433	1,926,669	5.7%				
Downtown Expressway	18,103,616	19,883,141	1,779,525	9.8%				
Boulevard Bridge	3,101,684	3,268,183	166,499	5.4%				
RMTA Total	55,010,064	58,882,757	3,872,693	7.0%				
	Toll	Revenue						
Powhite Parkway	\$21,731,763	\$22,763,138	\$1,031,375	4.7%				
Downtown Expressway	\$10,870,442	\$11,861,989	\$991,547	9.1%				
Boulevard Bridge	\$981,071	\$947,542	-\$33,529	-3.4%				
RMTA Total	\$33,583,276	\$35,572,669	\$1,989,393	5.9%				

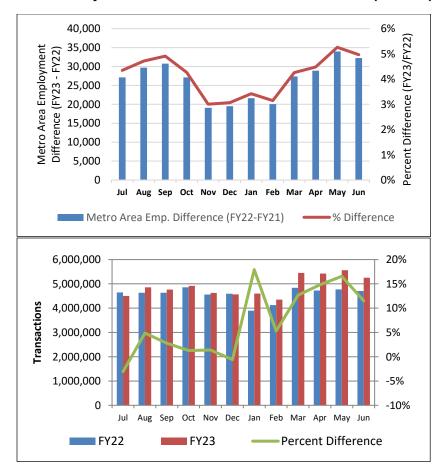

In terms of transactions, the RMTA's tolled facilities FY23 performance exceeded projections, with actual transactions being observed 4.4% above the FY23 forecasts. The revenue forecast for FY23 was almost as projected with actual revenues being -0.4% lower than the forecast. The potential difference between the performance of transactions and revenue could be caused by the identification and collection of violation transactions starting in FY23, thus the uptick in transactions, but not necessarily the uptick in revenue. Table 1-2 shows the actual performance of the RMTA facilities and the overall system in FY23 as compared to the FY23 forecasts. Figure 1-1 shows the year-over-year increase in the Richmond Metropolitan Area employment from FY22 to FY23 compared to the RMTA's monthly transactions for FY22 and FY23 and the percent difference between the two years.

Table 1-2: RMTA FY23 Traffic and Toll Revenue, Actual vs. Forecasts

FY23 - Actual versus Forecast								
Facility	Actual	Forecast	Differe	ence				
1 actility	Actual	Torecast	Absolute	Percent				
	Transac	etions

1.0 INTRODUCTION

Stantec, as the traffic and revenue consultant for the Richmond Metropolitan Transportation Authority (RMTA), provides an annual traffic and toll revenue report at the conclusion of each fiscal year. The purpose of the report is as follows:

- 1. Provide a definite dataset of the traffic and toll revenue achieved in the fiscal year for reference
- 2. Review the performance of the traffic and toll revenue forecast
- 3. Identify long standing and emerging trends in traffic and toll revenue on the RMTA system
- 4. Review external economic factors that affect traffic and toll revenue on the RMTA system; and
- 5. Present the current fiscal year's forecast in reference to the previous year's result

To efficiently realize the stated purposes above and provide the RMTA an accessible review of the data, a series of tables and charts were developed with explanatory bullet points to provide deeper insight of trends, as necessary.

The table of contents, which precedes the Executive Summary, provides an outline of the presentation of the data.

2.0 RMTA EXPRESSWAY SYSTEM OVERVIEW

The Richmond Metropolitan Authority (RMA) was created by an act of the Virginia General Assembly in 1966, as an independent authority and political subdivision. The RMA was originally formed to build and maintain a toll expressway system in the City of Richmond and the surrounding areas. Over the years, the role of the RMA expanded to include parking decks, The Diamond, a baseball stadium home to both the Virginia Commonwealth University Rams and the San Francisco Giants AA farm team (Richmond Flying Squirrels) of the Eastern League and operation of the Main Street Station, a completely restored Amtrak train station in Downtown Richmond, as well as the power to construct, own, and operate coliseums and arenas. However, the RMA Expressway System was always a separate financial entity; therefore, there is no co-mingling of funds to subsidize non-Expressway projects. This allowed for the transfer of some of the non-Expressway system assets to the City of Richmond in 2013 and 2014, including the parking decks and The Diamond. On July 1, 2014, the Virginia General Assembly changed the Authority's name to the Richmond Metropolitan Transportation Authority (RMTA) to align the name with the current focus on transportation and mobility aspects of the region. This legislation also equalized representation on the Authority's Board of Directors, which consists of five appointees of the City of Richmond and Counties of Chesterfield and Henrico, and one appointee of the Commonwealth Transportation Board.

(

The current RMTA Expressway System consists of three facilities: the Powhite Parkway, the Downtown Expressway, and the Boulevard Bridge. The location of the RMTA Expressway System is shown in Figure 2-1. A further description of the facilities on the RMTA Expressway System follows.

The **Powhite Parkway** was opened to traffic on January 24, 1973. The limited access expressway extends 3.4 miles from Chippenham Parkway to the Cary Street ramps. The major function of the Powhite Parkway is to be a crossing of the James River. There are currently three toll plazas on the Powhite Parkway, including the mainline plaza near the southern terminus, the Forest Hill Avenue ramp plaza and the Douglasdale Road ramp plaza that serve traffic to and from the north.

The **Downtown Expressway** opened to traffic in 1976 and was fully completed in 1977 with the connections to southbound I-95. The Downtown Expressway extends 2.5 miles from the Meadow Street Ramp in the west to I-95 in the east. The continuation of the Downtown Expressway to the west of Meadow Street is maintained by VDOT and offers a connection to I-195 to the north and the Powhite Parkway to the south. The Downtown Expressway has three toll plazas including the mainline plaza and two ramp plazas at 2nd and 11th streets.

The **Boulevard Bridge** was the first acquisition for the RMTA, having been purchased in November 1969. The steel truss bridge was built in 1925 to improve connectivity from the Westover Hills neighborhood south of the river to areas north of the river. With the opening of the Powhite Parkway, the Boulevard Bridge essentially serves the same role, as a neighborhood bridge for those with origins and/or destinations in close proximity to the bridge itself.

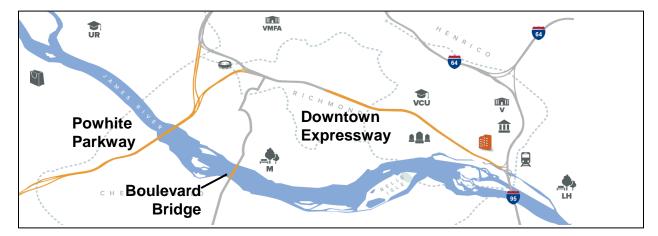

Figure 2-1: RMTA Expressway System

3.0 RMTA TOLL RATES

To build and maintain the RMTA Expressway System, the RMTA historically has issued toll revenue bonds that are backed by the future earnings potential of the Expressway System through collection of toll revenue. The current toll schedule is shown in Table 3-1.

Vehicle Class **Facility** 2 Axle 3 Axle 4 Axle 5+ Axle Powhite Parkway Mainline Plaza \$0.70 \$0.80 \$0.90 \$1.00 Forest Hill Avenue \$0.70 \$0.80 \$0.90 \$1.00 Douglasdale Road \$0.20 \$0.40 \$0.40 \$0.40 Downtown Expressway Mainline Plaza \$0.70 \$0.80 \$0.90 \$1.00 Second Street \$0.35 \$0.70 \$0.70 \$0.70 Eleventh Street \$0.30 \$0.60 \$0.60 \$0.60 **Boulevard Bridge** \$0.35 \$0.70 N/A N/A

Table 3-1: RMTA Expressway Toll Schedule (FY2023)

The current RMTA Expressway toll schedule went into effect September 8, 2008. The previous toll schedule, which was in place for approximately 10 years, charged a \$0.50 toll for passenger cars (2-axle) at the mainline plazas of the Powhite Parkway and the Downtown Expressway and \$0.25 for the Boulevard Bridge. A previously planned toll increase in 2018 was removed from the current plan based on traffic growth through FY17.

The toll rates for vehicles with more than two axles are also shown. Both mainline plazas and the Forest Hills ramp plaza share the characteristic of rising toll rates directly related to the number of axles the vehicle has, with a ten cent per axle surcharge above the two-axle rate. For the smaller ramp plazas of Douglasdale Road, Second Street and Eleventh Street, vehicles with more than two axles pay standard rates specific to each plaza. Vehicles with more than three axles are not allowed to access the Boulevard Bridge; therefore, no toll schedule is available for these vehicle classes.

The RMTA has increased tolls throughout the history of the Authority to fund operations, maintenance, and capital needs of their facilities while continuing to meet the demands of the growing traffic base in Richmond. The first toll increase was on July 20, 1978, which raised the two-axle toll at the Powhite Parkway Mainline from \$0.20 to \$0.25 and at the Downtown Expressway Mainline from \$0.15 to \$0.25. Over eight years later, the next toll increase occurred on November 1, 1986, raising mainline tolls from \$0.25 to \$0.30. A further adjustment was made on April 2, 1988, raising the two-axle toll from \$0.30 to \$0.35 at the mainline plazas, while the Boulevard Bridge saw its first toll increase from \$0.10 to \$0.20 for the same class of vehicle. Almost ten years later on January 5, 1998, the two-axle rate at the mainline plazas increased from \$0.35 to \$0.50 and the Boulevard Bridge from \$0.20 to \$0.25. On July 1, 1999, the RMTA System offered toll payment through the E-ZPass program (SmartTag at the time of implementation) which allowed motorists to pay tolls electronically. The electronic payment of tolls was \$0.45 at the mainline plazas, offering a 10% discount to cash payment for two-axle vehicles. All other vehicle classes paid the same rate regardless of

payment option. Again, the toll increase, effective September 8, 2008, was the last adjustment providing the toll schedule shown in Table 3-1, removing the difference between cash and electronic payments, before the most recent increase in September 2023.

It is common for toll authorities to increase tolls to keep pace with inflation to cover operating expenses, roadway and toll plaza maintenance and other such expenses that increase over time. Figure 3-1 provides a look at the inflation-adjusted toll rates based upon the opening toll rates for the respective facilities. The inflation rate was derived from the growth in the Consumer Price Index for the region over the same time period. As shown in the Figure, inflation-adjusted toll rates are much higher than the current mainline toll rates at both the Powhite Parkway and Downtown Expressway and the bridge toll at the Boulevard Bridge. Note that in July 1978 the mainline toll for the Powhite Parkway and Downtown Expressway were increased to the same level and since have shared the same toll rate and this is the basis for the analysis. Had they been adjusted for inflation; the opening year toll rate (1978 toll rate) would be approximately 48% more (\$1.04) than the current rate for the Powhite Parkway and Downtown Expressway and 106% more (\$0.72) for the Boulevard Bridge in June 2021. This means that in real terms, the tolls are much lower than they were in the past and in each successive year continue to retreat in value.

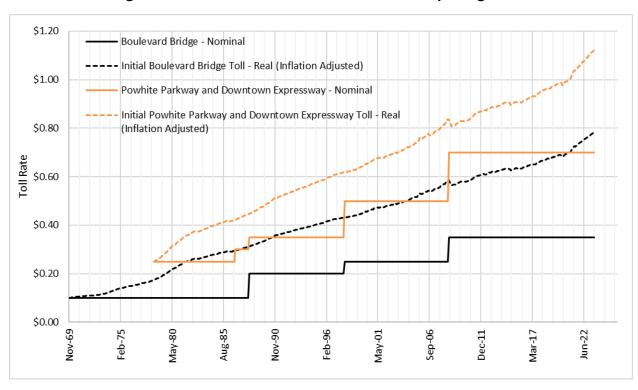

Figure 3-1: RMTA Historical Toll Rates Since Opening Years

4.0 COVID-19 IMPACT

The COVID-19 pandemic has had a significant impact on the RMTA System traffic and revenue. Virginia's then governor, Ralph Northam, declared a State of Emergency on March 12, 2020, and closed schools on the following day due to the pandemic. On March 30, 2020, he enacted a Stay-at-Home Order. The easing of pandemic-related restrictions began with Phase One on May 15, 2020, which allowed non-essential retail, outdoor dining, and drive-in services at places of worship to open at 50% capacity¹. Virginia continued to ease restrictions throughout most of the remainder of 2020, however on December 10, 2020, with COVID-19 cases rising in Virginia, Governor Northam enacted a Stay-at-Home Order between midnight and 5 AM and limited social gatherings to ten people². On January 17, 2021, Virginia recorded its highest daily number of new COVID-19 cases at 9,914. Cases declined rapidly after this point, due in part to the introduction of vaccines. On May 13, 2021, the Centers for Disease Control and Prevention stated that fully vaccinated people no longer needed to wear masks inside or outside or socially distance. Virginia lifted its indoor mask mandate on the following day.

Figure 4-1 through Figure 4-4 show the daily transactions for the RMTA System and each facility during the pandemic (from February 23, 2020, to June 30, 2022) compared to transactions prior to the pandemic (March 2019 to February 2020). The figures also show the percent difference between the two sets of data as well important dates during the pandemic. Since the beginning of FY22, the seven-day period with the lowest percent difference (-39%) in transactions from prior to the pandemic was during the first two weeks of January 2022. During this period, the RMTA system recorded a daily average of approximately 59,000 transactions, about 39% lower than average daily transactions for January 8-14, 2022. The Boulevard Bridge recorded a daily average of approximately 3,500 transactions for January 2022 and February 2022. This is an increase from the transactions in February 2021, that reflected a difference of -48.6%, partially owing to a significant rainstorm and closures on the Boulevard Bridge in 2021.

Since February 2021, the RMTA facilities have seen overall increases in traffic. By the end of June 2021, the seven-day average number of transactions on the Downtown Expressway was 48,014, about 72% higher than transactions between February 12-18, 2021, and about 23% less traffic than June 27-July 3, 2019. The largest spike in traffic was observed in December 2021 followed by an almost equally large dip in January 2022. January 2022 observed the lowest number of transactions since February 2021, with a -39% difference from pre-pandemic levels. By June 2022, the overall traffic was closer to pre-pandemic levels with the RMTA facilities observing traffic only 10% lower than the traffic observed before March 2020. The Boulevard Bridge observed the largest dip in terms of percentage traffic in 2021 at -75.8% and in January 2022, the facility observed a -64.7% decline in traffic from pre-pandemic levels.

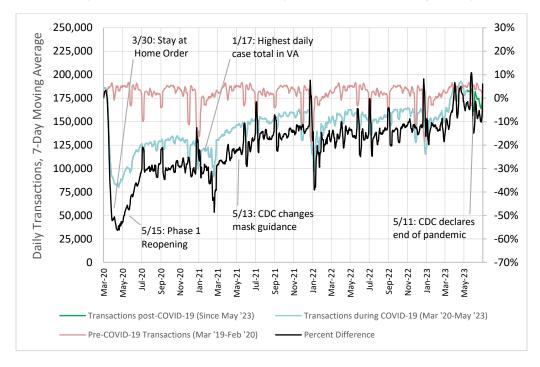

er description of Phase One is provided here:

https://www.governor.virginia.gov/media/governorvirginiagov/governor-of-virginia/pdf/Slide-deck-5.8.2020-Forward-Virginia-Phase-One.pdf

² https://www.governor.virginia.gov/newsroom/all-releases/2020/december/headline-886185-en.html

These decreases in transactions are also owed in part to closures on the Boulevard Bridge due to severe weather conditions in January 2022.

Figure 4-1: RMTA System Transactions, March 1, 2020, through June 30, 2023, compared to pre-COVID-19 Transactions (March 2019-February 2020)

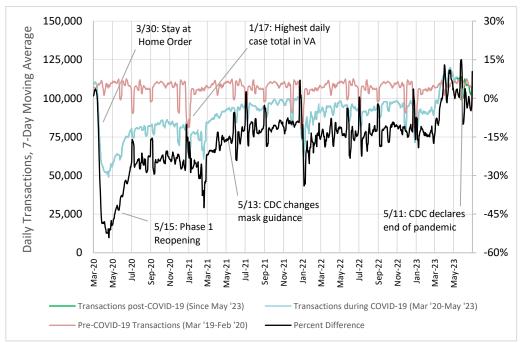

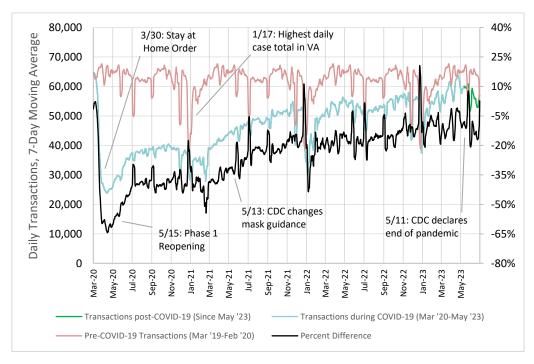

Figure 4-3: Downtown Expressway Transactions, March 1, 2020, through June 30, 2023, compared to pre-COVID-19 Transactions (March 2019-February 2020)

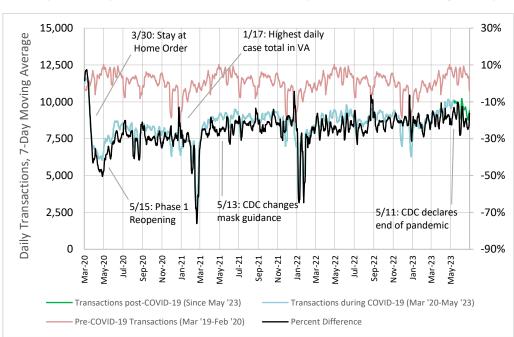

Figure 4-4: Boulevard Bridge Transactions, March 1, 2020, through June 30, 2023, compared to pre-COVID-19 Transactions (March 2019-February 2020)

5.0 FY22 TO FY23 CHANGE

- Overall traffic and revenue increased from FY22 to FY23 by 7% and 5.9%, respectively.
 - The Downtown Expressway transactions increased the most in percent terms at 9.8% and toll revenue decrease by 9.1%.
 - The Powhite Parkway transactions increased by 5.7% and toll revenue increased by 4.7%.
 - The Boulevard Bridge transactions increased by 5.4% and toll revenue decreased by 3.4%.
- The average toll on each facility has been relatively stable except for the Boulevard Bridge in 2023, when average tolls were 8.3% lower than 2022. Figure 5-2 shows the average toll rate by month for each facility and the entire RMTA system for FY 2023.
- Monthly data follows:
 - Between January and June, traffic and revenue were significantly higher in FY23 than FY22.
 - January 2023 has observed a substantial increase in both traffic and revenue in FY23 as compared to FY22.

- Between March and June 2022, traffic and revenue were moderately higher in FY22 than FY21. The pandemic had a stronger, negative impact in 2020 during these months, while in 2021, social distancing restrictions were being eased during these months. The situation has appeared to have improved further in early 2022.
- Traffic and revenue have both increased overall in 2023, except for the month of February which observed a 9% drop in revenue.

Table 5-1 and Figure 5-1 show the annual change in traffic, revenue, and average toll from FY22 to FY23 for each RMTA facility and the system as a whole. Table 5-2 shows the change in traffic and revenue from FY22 to FY23 for each month on the RMTA System and specifically on the Powhite Parkway. Table 5-3 shows the change in traffic and revenue from FY22 to FY23 for each month on the Downtown Expressway and the Boulevard Bridge. Figure 5-2 shows the average toll rates for all months of FY23 for each facility and the whole system.

Table 5-1: RMTA Change in Traffic, Revenue and Average Toll, FY22 to FY23

FY22 to FY23							
Facility	FY22	FY23	Diff	erence

Table 5-3: Change in Monthly Traffic and Revenue on the Downtown Expressway and Boulevard Bridge, FY22 to FY23

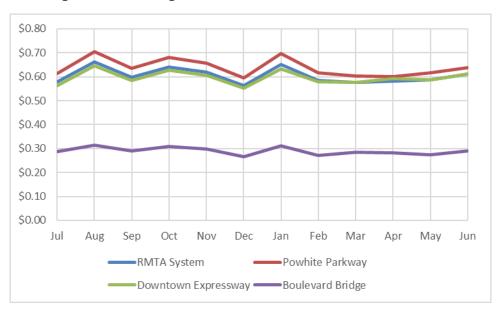

Figure 5-2: Average Toll Rates on RMTA Facilities in FY23

6.0 FY22 ACTUAL VS. FORECAST

FY22 onwards entailed a single forecast as opposed to the FY21 forecast which consisted of three scenarios of COVID-19 (Short/Mid/Long). The FY21 forecasts showed total traffic and revenue for the RMTA system most closely resembled the "Mid-Duration" forecast. For FY23, the forecast is comprised of a single scenario against which actual performance is measured. Table 6-1 and Figure 6-1 compare the FY23 actual annual traffic, revenue, average toll for the RMTA system and its facilities to the FY23 forecasts. Table 6-2, Table 6-3, Table 6-4, and Table 6-5 compare the FY23 actual monthly traffic and revenue to the FY23 forecasts for the RMTA system, Powhite Parkway, Downtown Expressway, and Boulevard Bridge, respectively.

7.0 FY22 PERCENT SHARE OF TRAFFIC BY FACILITY

This section presents the percent share of transactions by month and facility as well as total for FY2023. Figure 7-1 shows the percent share of transactions by month and facility. Powhite Parkway observes the highest amount of transactions, at 61% of the total RMTA system. Downtown Expressway has consistently observed a steady flow of traffic, seeing a slight uptick in transactions in February 2023.

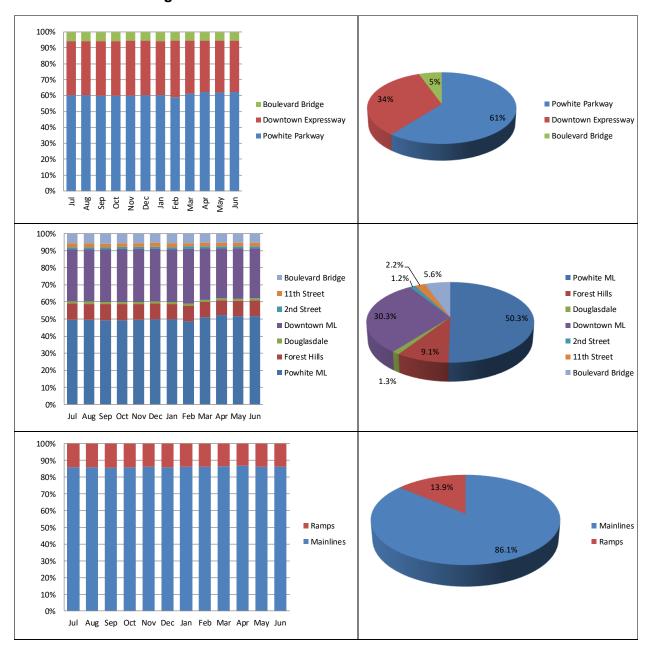

Figure 7-1: Percent Share of Transactions FY 2023

8.0 EMPLOYMENT TRENDS

- Prior to the COVID-19 pandemic, employment in the Richmond Metropolitan Area grew consistently for over 5 years.
- The Richmond Metropolitan Area's lowest month of employment in FY23 was November 2022, when there were about 678,200 jobs.
- Employment in the most recent month (June 2023) was about 712,000 which is 5.8% higher than the employment in the last June before the pandemic (June 2019), observing an increase from June 2021 which recorded employment 7.1% lower than June 2019.

Table 8-1 shows the monthly employment for the Richmond MSA from FY18 to FY23.

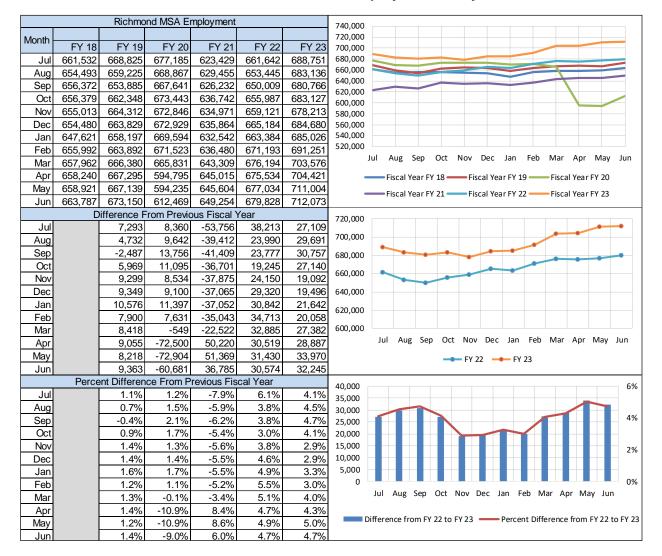

Table 8-1: Richmond MSA Employment Analysis

9.0 GAS PRICE TRENDS

- FY2022 was marked with large increases in gas prices, with average prices between \$2.96 and \$4.7 per gallon.
- Nationally, June 2022 saw a historic surge with gas prices averaging at \$5.02 an all-time high.
- Gas prices began cooling in July 2023, and have since stabilized below \$3.5 in FY2023.

Table 9-1 shows the average monthly gas price in the Lower Atlantic area from FY18 to FY23.

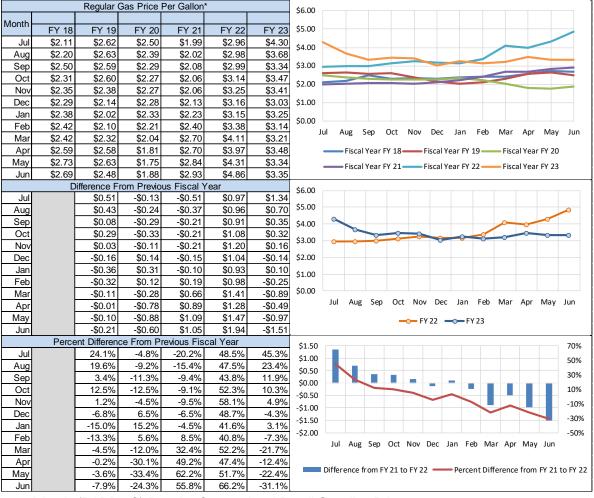

Table 9-1: Gasoline Price Analysis

*Lower Atlantic (PADD 1C) Regular Conventional Retail Gasoline Prices

Source: US Energy Information Administration

10.0 FY23 ACTUAL TO FY24 FORECASTS

- The major driver of transaction and revenue forecasts from FY23 to FY24 was the adjustment of the toll schedule anticipated and implemented on September 1, 2024, thus an estimated lowering of transactions and increase in revenues.
- Traffic results from Stantec's FY24 forecast range from -7.2% to -0.2% than the actual FY23. Toll
 revenue results from Stantec's FY24 forecast are 19.1% to 38.5% higher than the actual FY22 toll
 revenue.
- Powhite Parkway has outperformed the transactions forecast by 7.2% while Boulevard Bridge fell short of the forecast the most by 38.5% in terms of revenue.

• The FY23 average toll rate is expected to vary by 28.6% from FY22.

RMTA Expressway toll rates have increased since September 2023 with the introduction of a discounted toll rate for E-ZPass transactions³. Effective from September 2023, RMTA facilities operate on toll rates shown in Table 10-1.

Table 10-1 RMTA Expressway Toll Schedule (FY2024)

11.0 TRENDS BY FACILITY

11.1 T&R GROWTH TRENDS BY ALL FACILITIES

In this section, the long-term and short-term historical transactions and toll revenue by facility are provided. On the graphs on the following pages, the 12-month moving total is charted for each facility as well as the annualized percent change of that moving total. These two items allow for the review of growth by facility. The decreases in traffic due to the COVID-19 pandemic are the first on the Powhite Parkway and Downtown Expressway since the Great Recession about ten years ago. The Boulevard Bridge's traffic had been decreasing steadily since about July 2017, although it had one month of year-over-year traffic growth in February 2020, right before the COVID-19 pandemic impacted the Richmond area. The greatest 12-month decrease in traffic and revenue occurred from March 2020 to February 2021, in which traffic decreased by 31.7% and revenue decreased by 36.8% from the previous year (March 2019 to February 2020). Figure 11-1 shows the traffic and revenue growth trends for each facility and the RMTA system as a whole from July 2015 through June 2023. As can be seen, there was substantial recovery from the COVID-19 pandemic, and traffic appears to be approaching pre-pandemic levels.

12.0 LIMITS AND DISCLAIMERS

This report provides a summary of past traffic and revenue performance of the RMTA Expressway System and data related to potential future traffic and revenue for FY2024. It is Stantec's opinion that the traffic and toll revenue estimates provided herein represent reasonable and achievable levels of traffic and toll revenues that can be expected to accrue at the Authority's toll facilities over the forecast period and that they have been prepared in accordance with accepted industry-wide practice. However, as should be expected with any forecast, and given the uncertainties within the current economic climate and Pandemic, it is important to note the following assumptions which, in our opinion, are reasonable:

- This limited synopsis presents the highlighted results of Stantec's consideration of the information available as of the date hereof and the application of our experience and professional judgment to that information. It is not a guarantee of any future events or trends.
 It also assumes no continued restrictions with regard to the Pandemic.
- The traffic and toll revenue estimates will be subject to future economic and social conditions, demographic developments and regional transportation construction activities that cannot be predicted with certainty.
- The estimates contained in this document, while presented with numeric specificity, are based on a number of estimates and assumptions which, though considered reasonable to us, are inherently subject to economic and competitive uncertainties and contingencies, most of which are beyond the control of the Authority and cannot be predicted with certainty. In many instances, a broad range of alternative assumptions could be considered reasonable with the availability of alternative toll schedules, and any changes in the assumptions used could result in material differences in estimated outcomes.
- The standards of operation and maintenance on all of the System will be maintained as planned within the business rules and practices.
- The general configuration and location of the System and its interchanges will remain as they
 are today.
- Access to and from the System will remain as they are today.
- No other new competing highway projects are assumed to be constructed or significantly improved in the project corridor during the project period.
- Major highway improvements that are currently underway or fully funded will be completed as planned.
- The System will be well maintained, efficiently operated, and effectively signed to encourage usage.

FY 2023 ANNUAL TRAFFIC AND TOLL REVENUE REPORT

- No reduced growth initiatives or related controls that would significantly inhibit normal development patterns will be introduced during the forecast period.
- There will be no future serious protracted recession during the forecast period.
- There will be no protracted fuel shortage during the forecast period.
- No local, regional, or national emergency will arise that will abnormally restrict the use of motor vehicles.

In Stantec's opinion, the assumptions underlying the study provide a reasonable basis for the analysis. However, any financial projection is subject to uncertainties. Inevitably, some assumptions used to develop the projections will not be realized, and unanticipated events and circumstances may occur.
